

TARA PEAK

Nestled at the highest point of the Tara is a new subdivision with large lifestyle blocks incorporating the renowned Tara volcanic soil, the mature trees and the successful horticulture that is already a part of this property. Tara Peak has been created sympathetically, allowing the new owners to experience nature at its best.

Tara Peak has only 3 new blocks, one of which encompasses an extraordinary native bush area of kauri, kahikatea, puriri and totara. All the blocks including the Home Block, have established horticulture on them, making them income producing from the outset. Blocks range from 2.1ha to 4.3ha.

Other features:

- Quiet, secluded sites in lush surroundings
- Volcanic soil tested as some of the best in New Zealand
- Artesian water available
- Great building platforms on all blocks with extensive rural views
- Power & phone to the gate of each block
- Mature shelterbelt trees throughout
- Income producing horticulture on each block

To view or discuss please ring Tara Lodge on 09 4314730
